

Bachelor of Science Business Administration

Standard period of study: 6 semesters, full-time

Start: Fall and summer term

Degree title: Bachelor of Science

PROGRAMME STRUCTURE

The Bachelor's programme carries 180 ECTS credits and comprises a Core and Advanced Section, a Specialisation Section, a Supplementary Section and a Bachelor's thesis.

Bachelor of Science Business Administration

Business administration is a part of economic sciences. It is concerned with economic interrelations and principles of corporations and offers insights in corporative structures and processes. Specific fields and objects of research result from questions that different departments of corporations face.

The bachelor programme in business administration prepares students to solve these problems in the best way possible.

Perspectives

The bachelor programme Business Administration qualifies graduates for demanding and sophisticated field-specific tasks that provide future career opportunities in leading positions.

Employment possibilities for graduates present via the direct entry into or via trainee programmes of corporations in all areas of the economy, amongst others in the industrial sector, trade, logistics, energy industry and in the finance as well as the service sector.

Furthermore, students have the possibility to deepen and extend their specialised knowledge scientifically in a consecutive master programme and thus prepare for a specific occupational field.

Specialisation through Interdisciplinarity

Students are able to express their interests and professional aspirations by choosing respective modules in the supplementary section. Within this section, further modules from business administration as well as modules from economics, social sciences and information systems can be chosen.
